

Whitwell Primary School

Pupil Premium Strategy Statement: 2023-24

This statement details our school's use of pupil premium (and recovery premium for the 2022 to 2023 academic year) funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the effect that last year's spending of pupil premium had within our school.

School overview

Detail	Data
School name	Whitwell Primary School
Number of pupils in school	249 including Nursery
Proportion (%) of pupil premium eligible pupils	41%
Academic year/years that our current pupil premium strategy plan covers (3 year plans are recommended)	2023-24 & 2024-25
Date this statement was published	September 2023
Date on which it will be reviewed	July 2024 (Monitoring and evaluation will take place termly throughout)
Statement authorised by	Mrs S Tomlinson
Pupil Premium Lead	Mr T Stirling
Governor Lead	Mrs L Patterson

Funding overview

Detail	Amount
Pupil premium funding allocation this academic year	£153,270
Recovery premium funding allocation this academic year	£14,210
Pupil premium funding carried forward from previous years (enter £0 if not applicable)	£0
Total available	£167,480

Part A: Pupil Premium Strategy Plan

Statement of Intent

At Whitwell Primary School we believe that all children should be supported to be the BEST they can be in all areas and aspects of life both in and out of school. This is underpinned by our school motto: Believe, Endeavour, Succeed Together.

Therefore we will target the use of Pupil Premium Grant funding to ensure that our disadvantaged pupils receive the highest quality of education to enable them to become active, socially responsible citizens of the future, making good progress and achieving well.

We recognise that disadvantaged children can face a wide range of barriers which may impact on their learning. We consider the challenges faced by vulnerable and disadvantaged pupils and organise specific measures in order to address these.

High-quality teaching is at the heart of our approach, with a focus on areas in which disadvantaged pupils require the most support. This is proven to have the greatest impact on closing the disadvantage attainment gap and at the same time will benefit the non-disadvantaged pupils in our school.

Our ultimate objectives are:

- To narrow the attainment gap between disadvantaged and non-disadvantaged pupils.
- For all disadvantaged pupils in school to make or exceed national expectations.
- To support our children's wellbeing to enable them to lead happy and fulfilling lives.

To ensure they are effective we will:

- Ensure disadvantaged pupils are challenged in the work that they're set.
- Act early to intervene at the point need is identified.
- Adopt a whole school approach in which all staff take responsibility for disadvantaged pupils' outcomes and raise expectations of what they can achieve.

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	Attainment is not in line with national, including at Greater Depth, for PP children in Reading and Writing. Disadvantaged children with SEND can demonstrate significant challenges that require additional support/specific intervention.
2	Reading – poor oral language skills in EYFS & KS1, insecure comprehension skills for PP children at Year 2 and above; and inferential skills for high attaining children in KS2.
3	Emotional issues, including low self-esteem, for a proportion of pupils (mostly eligible for PP) are having detrimental effects on their academic progress.
4	Attendance rates and punctuality for disadvantaged pupils.
5	Participation in wider opportunities at school as for some families there are limited opportunities outside of school due to financial constraint.

Intended outcomes

This explains the outcomes we are aiming for by the end of our current strategy plan, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
Raised attainment in Reading and Writing of all PP pupils.	Targeted pupils make good progress from their starting points, and so the attainment gap between PP pupils and all pupils narrows in Y1 to Y6.
Targeted support accelerates children's progress from their starting points.	Pupils eligible for PP funding make good and better progress from their starting points. Interventions and strategies are targeted effectively to meet individuals' needs and support is directed well.
Pupil premium children will gain new strategies to deal with issues around their own mental health and well-being. Their self-esteem will have improved.	Pupil will arrive in school with a positive mindset and incidents of pupils arriving in school in a negative way will continue to decrease. Conversations in intervention and pastoral groups will reveal less anxiety around out of school situations. Children's emotional well-being is improving.
Improved attendance rates for PP eligible pupils.	Overall attendance rate improves for PP eligible pupils closer to 96% (National Average). Reduce the number of persistent absentees attendance of below 90% among pupils eligible for PP to 10% or below.
Inclusivity and confidence to be raised by giving children the same opportunities as non-PP children.	At least the same percentage of PP children take part in activities on offer as non-PP children. That cost is not a barrier to participation.

Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium funding) this academic year to address the challenges listed above.

Teaching (for example, CPD, recruitment and retention)

Budgeted cost: £ 103,600

Activity	Evidence that supports this approach	Challenge number(s) addressed
To sustain TA support in class during English, Maths, Phonics and Guided Reading. This enables every class to have a TA in the mornings, which means there is sufficient time to ensure quality first teaching alongside offering pastoral and learning intervention support. Children receive greater quality interaction and feedback from the adult working with particular groups.	We want to offer high quality teaching and support to all children to drive up results. In the Sutton Trust Toolkit it shows that Feedback given by TA or Teacher can be very effective.	1,2

<p>Focus on hearing Pupil Premium children read to increase their comprehension and inference skills. This will be achieved through additional quality TA support. Regular reading leads to improved fluency. Those children identified with a barrier to learning that relates to a low level of support at home will be a particular focus.</p>	<p>It provides high impact for very little extra cost.</p>	
<p>Teaching staff to be fully aware of the barriers to learning for the PP children in their classrooms. For teaching staff to be accountable for their accelerated progress through their planning and interventions and increased monitoring of vulnerable groups to identify gaps and establish what further can be done to diminish the difference.</p> <p>DHT to monitor and manage provision through additional Pupil Progress review meetings for PP children.</p>	<p>An improvement in the assessment and tracking of all pupils is in place in order to identify the gaps in learning for specific pupils at a faster pace. Further discussions between DHT and staff to establish what is being done to diminish the difference. An improvement in tracking systems was highlighted in the 2014 Ofsted report Pupil Premium Update – Analysis of Pupil Progress and states that it is even more effective when findings are shared with teachers.</p>	<p>1,2,3,4,5</p>
<p>An additional teacher to reduce class sizes in KS2 and to avoid a mixed Key Stage split class. This will enable 6 classes at Key Stage 2 with parallel teaching to Y3/4 and Y5/6. Due to numbers this year (2023-24) the Y5/6 will be grouped in two classes but taught by 3 teachers for the mornings, thus providing smaller groups and high quality learning opportunities.</p>	<p>The EEF say, “Reducing class size appears to result in around three months' additional progress for pupils, on average. The gains from smaller class sizes are likely to come from the increased flexibility for organising learners and the quality and quantity of feedback the pupils receive.”</p>	<p>1,2,3,4,5</p>
<p>Allocation of funds towards Continuing Professional Development (CPD) for teachers and TAs across school. Impact of each CPD event to be recorded and monitored.</p> <p>Develop middle leadership skills to drive subject specific school improvement through ongoing training and coaching - NPQLT and NPQSL.</p> <p>Allocation of funds for reading, writing and maths initiatives, subscriptions and high quality texts for EYFS, KS1 and KS2 – inc White Rose, Testbase, TT Rockstars.</p>	<p>On-going, high-quality CPD is essential to implementing the EEF’s principles and to provide a broad and engaging curriculum that focuses on vocabulary acquisition and skill development.</p>	<p>1,2,3,4</p>

Targeted Academic Support (for example, tutoring, one-to-one support structured interventions)

Budgeted cost: £53,000

Activity	Evidence that supports this approach	Challenge number(s) addressed
<p>Targeted intervention with trained TA – School-based tutoring.</p> <p>Additional small group intervention with highly qualified staff – including: Inference Intervention, Maths Intervention, Accelerated Reading, RWI, ECAT, ECAM, Speech & Language – including any resources needed.</p> <p>Use of EYFS Pupil Premium for early intervention following baseline.</p> <p>Focussed support for disadvantaged children with SEND in two particular year groups in school. This need brings significant challenges that require additional support/staff and specific intervention.</p> <p>‘Booster’ sessions with class teachers after school or morning National Tutoring Programme TA interventions, with registered staff for identified children.</p>	<p>The National College for School Leadership published a report summarising good practice on closing the attainment gap under the 2014 Primary National Curriculum, it highlights the importance of outstanding practice and targeted support as key drivers for improving progress.</p>	<p>1, 2</p>
<p>Forest Schools Programme and Outdoor Learning programme or Nurture Group (3 afternoons per week) focussing on behaviours for learning and social and emotional learning.</p> <p>Pastoral Manager - To lead on a range of programs to support the development of self-esteem and confidence of the young people in school.</p> <p>Improved socialisation skills that will improve rate of progress within class.</p> <p>Emotional and social development. Examples of these include nurture activities, Forest Schools, anxiety gremlins, drama activities and working towards the John Muir Award. Also working with individuals and supporting parents.</p>	<p>Evidence from EEF, suggests that behaviour interventions can produce large improvements in academic performance along with a decrease in problematic behaviours, though estimated benefits vary widely across programmes. Effects are larger for targeted interventions matched to specific pupils with particular needs or behavioural issues, than for universal interventions or whole school strategies.</p>	<p>3,4</p>
<p>Reading – continue the AR program and continue to train staff by cascading updated knowledge. Organise further training as available to further develop practise.</p> <p>Update staff knowledge and skills in the teaching of phonics.</p> <p>Purchase additional books and resources to support phonics and AR to motivate children, giving a wider range of reading genres, particularly with a non-fiction focus.</p>	<p>The National College for School Leadership (National College) have published a report summarising good practice on closing the attainment gap under the 2014 Primary National Curriculum, it highlights the importance of outstanding practice and targeted support as key drivers for improving progress.</p>	<p>1,2</p>

Wider Strategies (for example, related to attendance, behaviour, wellbeing)

Budgeted cost: £14,300

Activity	Evidence that supports this approach	Challenge number(s) addressed
<p>To increase attendance in school, particularly of the Pupil Premium Low attenders. Active protocols in place to alert non-attendance asap. Text, phone calls and follow ups to be in place. Systems to ensure children are able to overcome barriers that prevent them from attending school. Attendance meetings and letter informing parents of poor attendance. Strategies in place to deal with continual poor attendance (Outside agencies if necessary). Weekly class attendance to be announced in assembly and published in newsletter. Termly certificates and stickers are awarded for improved attendance.</p>	<p>Following the review of attendance for 2021-22, it remains that although attendance for PP children has improved greatly, it still continues to be below that for other pupils. (93% for all pupils compared to 90% for PP children in 2021-22). Consistent poor attendance has a huge impact on the progress of all children. Engagement with parents is key to improving attendance as highlighted by the Sutton Trust.</p>	<p>4</p>
<p>All pupils eligible for PP funding will be part funded for trips, clubs and residential trips, ensuring these valuable enrichments activities are accessible for all our pupils. All PP children will have access to subsidised Breakfast Club places and additional support while in attendance.</p>	<p>Some pupils from lower income families may not have the opportunity to experience the range of activities that are offered through school trips. This disadvantages them from those pupils who are able to, which can affect their confidence and enjoyment of school. The EEF Toolkit suggests that participation in activities such as dance, drama, music and residential visits has a moderate impact on English, Maths and Science attainment. It also states that there are benefits in areas such as spatial awareness, attitudes to learning & wellbeing.</p>	<p>4, 5</p>
<p>Educational Psychologist To purchase additional hours from this service as necessary to identify gaps in learning and other reasons why certain PP children don't achieve/ or to give additional support if appropriate to the most able.</p>	<p>We want to offer high quality teaching and support to all children to drive up results.</p> <p>In the Sutton Trust Toolkit it shows that Feedback given by TA or Teacher can be very effective. It provides high impact for very little extra cost.</p>	<p>1, 2, 3</p>

Total budgeted cost: £170,900

Part B: Review of outcomes in the previous academic year – 2022-23

Pupil Premium Strategy Outcomes

This details the impact that our pupil premium activity had on pupils in the 2022 to 2023 academic year.

Outcome 1 - Raised attainment in Reading, Writing and Maths of all PP pupils

KS1	All Pupils %	PP %	National All Pupils % <i>(Emerging % not validated)</i>
Y1 Phonics	74	69	79
Y2 Reading	53	34	69
Y2 Writing	53	33	60
Y2 Maths	63	53	70

KS1 data analysis shows, in 2022 overall our disadvantaged children attained in line with provisional national data – 69% in Reading, 56% in Writing and 63% in Maths; this is a real improvement from our 2019 data where our disadvantaged did not attain as well as other children. However, in 2023 results declined in all areas. This is cohort specific. This cohort is 55% Pupil Premium and has a high proportion of SEND.

KS2	All Pupils %	PP %	National All Pupils % <i>(Emerging % not validated)</i>
Y6 Reading	59	44	73
Y6 Writing	64	44	71
Y6 Maths	77	56	73
Y6 RWM	56	43	59

KS2 data analysis shows, in 2022 the gap between our disadvantaged children and provisional National data narrowed in all subjects – 6% in Reading, 1% in Writing and 7% in Maths; this is an improvement from our 2019 data. In 2023 the overall RWM combined data improved overall again from 2019 and 2022. This data for PP children improved by 10%.

Outcome 2 - Targeted support accelerates children's progress from their starting points.

NELI and/or SALT interventions have been provided by trained staff in FS2 and Y1. Evidence shows the children are all making good progress.

RWI phonic interventions in Y1 and Y2 have meant that children have achieved in line with National, despite their low starting points, resulting in 74% of children in Y1 (compared to 79% Nationally) and 84% by the end of Y2, compared to 88% Nationally. This shows targeted support is used effectively.

Inference interventions in Y4 and Y5 have been used to impact on the reading progress of children as they are moving into UKS2. The children have more confidence in class and are more able to tackle unseen texts in shared and guided reading. They understand what it means when inference is taught about in shared class lessons.

Use of the National Tutoring Program has included intervention for the teaching of reading this year and this has been taught to individuals in Y2, Y4 and Y6.

Outcome 3 - Pupil premium children will come into school more readily and positively and with less anxiety. Their self-esteem will have improved.

Forest School provision continues to enhance the curriculum offer for children in KS2 in need of support. The Pastoral Lead has a great understanding of the needs of various children and works hard to support families. Many activities have been offered through the year including outdoor learning, social skills groups, anxiety and anger gremlins programs, structured play during lunchtimes, working alongside individuals in the classroom in sessions and attending residential visits.

Outcomes are measured against Assessment Profiles that have been designed specifically for our Forest School Provision. These are linked to key areas of personal and social development. They compare initial data to the end of the term. Graphs are printed for each individual to show their progress. Children are included in social activities, have engaged in new friendships and have shown themselves better able to tolerate others and different situations.

Outcome 4 - Improved attendance rates for PP eligible pupils.

Attendance for 2022-23 academic year was 92% which was above National of 91%. This is an increase on the attendance in 2021-22 for disadvantaged children was 90.2% which was also in line with the FFT Primary National Average Attendance of 90.5%.

We continue to monitor all attendance, including that of the disadvantaged children. Procedures are in place to reward attendance, including weekly attendance awards, half-termly certificates and 100% attendance prizes. We have identified from our monitoring that a specific number are of children are classed as persistent absentees once taking into account holidays and long term illness, a significant proportion of these being disadvantaged children. Work continues with these families to improve their attendance and will continue to be a particular focus for Whitwell Primary School.

Outcome 5 - Self-esteem and confidence to be raised by giving children the same opportunities as non PP children.

42 out of 67 children attended the Lea Green trip in March 2023. 48% of these were PP children. 60% of the possible PP children attended this trip.

32 out 39 Y6 children attended the Isle of Wight Residential in June 2023. 38% of these children were PP children. 75% percent of the possible PP children attended this trip.

These figures show a high engagement with residential visits and children wanting to take part and have opportunities for learning outside of the school day, including social skills and self-care.

All children take part in sporting events. The PE lead targets a mix of PP and non PP children to represent school, PP children are particularly involved in events during the school day so that there are no barriers to participation.

Externally Provided Programmes

Please include the names of any non-DfE programmes that you purchased in the previous academic year. This will help the Department for Education identify which ones are popular in England.
